

SRE Program Year 10 - 'Hot Hits of the Sophisticated Mind'

This program is designed for a Stage 5, Year 10 class. It utilises current songs that students will mostly be familiar with and explores the themes and issues they bring out. These themes are explored through a biblical framework and worldview as students apply their understanding to their individual lives. Games are taken from the TV show Spicks and Specks. They have been adapted to suit scripture classes.
